The Steering Group was made aware of some planning constraints on its proposed strategic reserve site, which extended to all the other available sites and, on the advice of its planning consultant, resolved to withdraw the strategic site. As a result of this decision, it will be writing to the Planning Inspector dealing with the hearing of Land to the West of Waterloo Road advising him of its decision and giving full details for the grounds of this withdrawal.

The numbering of the Neighbourhood Housing policies (Policy H) to be re-adjusted following the deletion of H2

- Another amendment required was to ENV10, and it was unanimously agreed to insert the following wording:
“habitat loss should be avoided and reduced wherever possible and habitat recreation is to be used only as last resort”
