5. TO RECEIVE A PRE PLANNING PRESENTATION FROM KATHRYN VENTHAM OF BARTON WILLMORE IN RESPECT OF THE ASPIRATIONS FOR BIDFORD GRANGE GOLF CLUB

Presentation documents were circulated prior to it being made.

These documents are being made available to post on the website.

The main proposal from the presentation was the development of dwellings specifically for the Over 55s with the accompanying ancillary leisure facilities and local transport service.

After the presentation, Council sought clarification on the following questions:

- i.** Had a survey been carried out to establish the actual local need for this type of development?

The reply was not yet but it would be done if the proposal was to progress further

- ii.** Would the local transport facility be available to residents from Bidford to use the leisure facilities? Would the transport continue into the evening?

The replies to the first were that it could be looked at and perhaps refer to other similar developments within Warwickshire.

The reply to the second issue was that, if there was a particular event in the village during the evening, transport would usually be made available.

The Chairman thanked Ms Ventham.

6. TO REVIEW PLANNING APPLICATION 17/03542/FUL – MISS ELIZABETH WOODS, PERSIMMONS HOMES LTD., MARRIAGE HILL NURSERIES, 45 SALFORD ROAD, B50 4EY

Erection of an electrical sub station to serve residential development 14/03028/OUT/

PM Mins. Jan. 2018

16/02642/REM (retrospective)

The Parish Council considered this application at its December Planning Committee meeting and resolved to object on the grounds that it has an adverse visual impact on the streetscene. This objection could be waived, if the applicant agreed to “screen” the substation minimising the visual impact.

The Planning Officer has noted the comments and had replied as follows: *There is an existing hedge row adjacent to the sub-station where this bounds Salford Road. Submitted plans (extract below) show proposed shrub planting (where visitor parking is currently located) and additional hedge row planting approximately where the existing close boarded fence is (shown in photo 2 below). It is possible to condition that this planting as shown on the submitted plan is put in within the first planting season following consent being granted. Would this be sufficient to screen the sub-station from your point of view or where you looking at further screening? If so could you advise what screening you are looking for so that I can engage with the developers on this matter.*

Council considered the comments made by the planning officer and the photographs and layout supplied by her, and it was unanimously **RESOLVED** to waive the objection as the screening being supplied was considered acceptable.
