Following a lengthy discussion, during which Councillors raised the issue that applicants would have been aware that these trees had TPOs when they purchased the property and that, therefore, they should have been regularly maintained, it was **RESOLVED** by 7 votes in favour and 1 against, to object to the felling of either tree.

A detailed description of the work to be carried out by a professional tree surgeon should be presented for approval before any work is done.

The Chairman took the opportunity of raising the issue that, although the Council had sent a “no objection” reply, this did not result in the application going to Planning Committee which would have allowed the Parish Council to put forward its reasons. This means that, in order to ensure an application goes to committee in the event the Parish council and the Planning Officer have different views, the reply has to be one of objection or support. This is of concern as Councillors believe it will dilute the reasons when it supports an application as opposed to simply not
