Alcester Police SNTs. Latest Weekly Report. Sunday 14th July 2024

Based at Alcester Police Station, The Safer Neighbourhood team's primary roles are around crime prevention, problem solving both long standing or emerging issues of community concern and community engagement. We are supported at Alcester by colleagues from Patrol teams whose role is to respond to incidents and investigate crimes that occur in the area 24/7. The SNT is supervised by Inspector Hembry who leads on Neighbourhood Policing for Stratford District and Sgt Ebbs who also oversees neighbourhood Policing in the Shipston on Stour area. The Alcester SNT currently consists of 2 Police officers and 5 Police Community Support Officers, and our contact details are shown above.

Hello all.

This is our latest combined weekly report and prompt to see if you have any questions, suggestions or concerns for the Alcester Police Safer Neighbourhood Teams. Thank you to those that have contacted the Teams this week. If you would like to be removed from this local email circulation list, please let me know asap. This report will also be sent out on the Warwickshire Connected alert system.

For operational and privacy reasons not all the incidents that occur on the Alcester area are listed in this report, although they are recorded on police systems. Please remember to report any anti-social behaviour, suspicious activity or crimes to us as soon as possible - this can be done via the 101 and 999 telephone numbers or if not an emergency via our online reporting forms that can be found on our website. If you have any information or cctv footage that may relate to the incidents listed, please contact us.

HELP STOP KEYLESS CAR THEFT

Thieves can steal your keyless car by hijacking and amplifying the signal from your starting device in order to start your vehicle. Help to protect your vehicle.

- Make sure your car is properly locked and keep your key away from doors and windows. This will reduce the chance of criminals amplifying the signal
- Some keys have a function allowing them to be turned off. Check your manual to see if yours does and then use it.
- Use some kind of physical barrier such as a steering wheel lock, driveway parking post or wheel clamp. This will deter many criminals
- Fit a tracking device
- Keep your keys in a Faraday bag to block the signal
- Remove the batteries from your spare keys

And remember, be on the lookout for people acting suspiciously and report it by calling 999.
